

Dear School Community,

Makerspace is BACK! Makerspace Club will be held before school for 1-2nd and 3-5 grade. Mornings to be announced soon. Makerspace Club provides hands-on, creative ways to encourage students to design, experiment, build and invent as they deeply engage in science, engineering and tinkering. Sessions run in 6-week cycles.

We would like to ask your help by sending in any of the following materials that we could use in our school-wide maker projects. Most of the materials are recyclables, though we are also looking for reusable construction materials like Legos, Kinex, Magnatiles or blocks which you may have lying around your home that your child doesn't use anymore.

If you are willing to donate any of the following items, please drop them off to the school office. We will be accepting donations as long as we have specific needs. If you have any further questions or think you have something not listed that might be useful to our Makerspace, please email me at baserj@bsd405.org

Thank you in advance for helping us collect these items and supporting our creative explorations!

Sincerely,

Ms. Baser & Mrs. Terry

- cereal boxes
- shoe boxes
- cardboard tubes
- plastic lids/caps
- playing cards
- egg cartons
- bubble wrap
- wine corks
- used electric toothbrushes
- broken flashlights
- magnets
